

**Michigan Medicine
University of Michigan
Department of Pathology
Academic Head and Neck
Pathologist**

ANN ARBOR, MICHIGAN (USA). The Department of Pathology at Michigan Medicine (University of Michigan Health System) is seeking an MD with subspecialty training and expertise in Head and Neck Surgical Pathology. Our active H&N pathology service annually

accessions nearly 4,000 biopsy and surgical cases and over 1500 extramural consultations. Our Head and Neck Pathology Fellowship attracts nationally competitive candidates.

The successful candidate will have completed a Head and Neck Surgical Pathology Fellowship or the equivalent and have a track record of peer-reviewed publications in this surgical pathology. Excellent diagnostic and communication skills, commitment to excellent patient care, a quest for discovery, and a passion for teaching are required. The appointment will be at an Assistant, Associate, or Full Professor level, commensurate with the candidate's experience, accomplishments, and record of academic achievements.

Our department comprises 221 faculty with extramural research support consistently ranked in the top 10 nationally for NIH funding for the past decade. The laboratory serves patients and world-class providers at Michigan Medicine Health as well as patients referred through our national reference laboratory service, MLabs. The city of Ann Arbor is consistently ranked as one of the most livable, best educated, and best for retirement in the country and is a very desirable place to live, work, and raise a family.

Interested candidates, please submit a curriculum vitae, cover letter, and three references to:
