

Department of Pathology and Laboratory Medicine

UNIVERSITY OF WISCONSIN
SCHOOL OF MEDICINE AND PUBLIC HEALTH

ENT Surgical Pathologist

The University of Wisconsin-Madison Department of Pathology and Laboratory Medicine is recruiting an academic surgical pathologist with expertise in ENT and endocrine (specifically thyroid) pathology. An MD, DO or MD/PhD and board eligibility or certification in Anatomic Pathology or AP/CP are required. Surgical pathology subspecialty training in or greater than three years of sign-out experience in ENT or endocrine pathology is also required.

The successful candidate will have additional opportunities in genitourinary or other areas of surgical pathology depending on skills, training and interests. In addition, the appointee will be given the opportunity to work closely with multi-specialty UW Comprehensive Cancer Center groups on collaborative clinical and translational research projects and to teach a variety of learners. The University of Wisconsin Medical Center is a tertiary care center with comprehensive programs in cancer and transplantation, and with actively funded SPORE program in head and neck cancer. The laboratory processes greater than 60,000 surgical specimens per year.

[Madison](#), often rated as one of the best places to live in America, is built on an isthmus, surrounded by lakes. The city, campus, green spaces and urban areas are blended to create a place unlike any other.

The successful candidate will be appointed as a full faculty member of the department on a non-tenure track – either a clinical health sciences (CHS) or a clinician-teacher (CT) track. The **CHS** track academic pathologist will sign out surgical pathology cases and contribute to the teaching and research missions. The **CT** track pathologist is primarily a clinical pathologist, signing out surgical pathology cases and teaching trainees.
